## Deep roots, global vision.

Founded in 1956, Comelit Group SpA is an industrial company operating on a worldwide scale and specialising in the design and manufacture of video entry, video surveillance, anti-intrusion, home automation, access control systems and antifire.

The company has a strong international vocation thanks to its close ties with the area in which it was created and in which its headquarters are still located today.

## Focusing on mankind and his values.

Comelit has always placed mankind at the centre of its vision. This humanist approach is evident in the company's focus on its employees, in the organisation of its working environment, in the ethics governing its relationships with suppliers and distributors, and in the partnership it fosters with installers. Every Comelit product expresses this vision, constructed on the basis of enduring values.

# VIDEO CPS ViP

Desk mounted audio-video porter switchboard, with alphanumeric key pad and touch screen. Allows the visitor to be seen and the name or apartment number of the user being called to be displayed. Allows management of calls. Day/ Night setting and intercom facility. 12V DC power supply with part. 43082 or directly from VIP network. Dimensions:193 x 223 x 65 mm

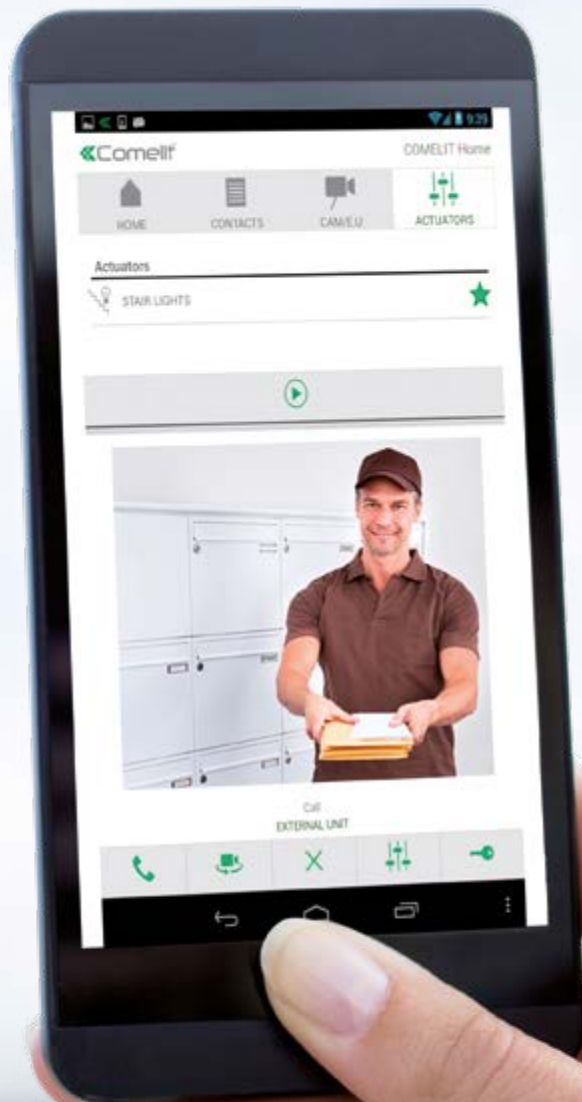

# PC SWITCHBOARD SOFTWARE

Software on USB micro-key for simple management and control of all the typical functions of the porter switchboard. In addition to the classic functions of VIP video door entry monitors, it receives and forwards audio/video calls and manages alarms in the apartments; it has a directory of actuators, internal and external units which, when programmed, easily identify the apartment and the external unit which made the call. It also has a recordings archive which stores all calls (made, managed, lost and forwarded) from internal/external units and alarms. It can also send messages to internal units. The software comes with a user license. To work correctly, the USB micro-key must always be inserted in the computer.

# Comelit ViP Remote

The Comelit App manages door entry and other advanced functions even from 3G or higher networks. The Comelit App is available for both smartphones and tablets.

## ANSWER CALLS FROM EXTERNAL UNITS

You can answer audio or audio / video calls from a smartphone or tablet locally (Wi-Fi network) or remotely (with 3G or higher network)

## MAKE AND RECEIVE CALLS FROM OTHER INTERNAL UNITS (IN THE CONTACTS LIST) AND FROM OTHER DEVICES

You can make or answer audio calls from a smartphone or tablet locally (Wi-Fi network) or remotely (with 3G or higher network) to ViP devices (internal units or devices with the Comelit App)

## VIEW AND MANAGE CAMERAS

You can view (live) CCTV cameras and images from the entrance panels

## VIDEO MEMORY

The new Video Memory function views videos recorded from external units and CCTV cameras (up to 10 seconds)

## ACTUATOR ACTIVATION AND MANAGEMENT

This function is used to control actuators to manage lights, gates, barriers, etc.

The APP can be downloaded free of charge from the App Store or Google Play
